

# PureSoft from CS4UK

## Unbelievably Sustainable

Beige is the new green! Satino from CS4UK presents a raw material sensation: Satino PureSoft is the first recycled hygiene paper with premium quality made from cardboard. It is luxuriously soft, especially absorbent and hygienically safe in all applications ranging from towel paper and toilet paper to kitchen rolls.

Satino PureSoft is dermatologically tested, also making it a good choice for sensitive skin. Its particularly sustainable and is produced entirely without bleaching: this not only ensures its visibly natural colouring, but also reduces its ecological footprint by an impressive 70% compared to fresh fibres.

- 100% recycled quality made from cardboard.
- 60% virgin plastic saving in packaging.
- 70% reduced ecological footprint.
- Fast dissolving toilet tissue – after just 20 seconds.
- 100% unbleached.
- Robust and attractive Free on Loan dispensers.

Contact us today so we can help you with your sustainability targets and ambitions. Samples and trials available. Join us on our Carbon Neutral journey today!
