

ENHANCE PRIVACY IN YOUR SCHOOL

Introducing **FORTRESS** Privacy Screening

FORTRESS - School Boundary & Playground Privacy Screen Netting.

FORTRESS is an extra heavy-duty, 170gsm UV-protected, knitted high-density polyethylene (HDPE) material, offering up to 88% blockage/privacy whilst still facilitating optimised airflow.

Supplied on a roll, with buttonhole eyelets running the length for easy installation, FORTRESS is a superb solution for school playground boundary lines, ensuring children are kept safe and secure within the school grounds.

Not only does FORTRESS excel in securing playground boundaries, it also serves as a brilliant choice for concealing and screening bin and storage areas on educational sites.

Available in both green and black, you can choose from three different sizes to best suit your school's needs.

With FORTRESS, creating a safer and more secure environment for your students is **straightforward** and **efficient**.
