CS4|UK

Trusted Provider of Washroom
and Cleaning Solutions to the
Education Sector

Washroom and cleaning problems?

We were built for exactly this

The CS4UK Discovery Report

Over 30 years working exclusively in education has given CS4UK something no general supplier can offer. The accumulated knowledge of what actually works, in real school buildings, with real constraints.

Every CS4UK relationship begins with a Discovery Report, a structured on-site visit that draws on that experience to pinpoint exactly what your school needs. Every recommendation relates to the age of your building, how it is used, your cleaning and maintenance staff levels, the demographics of your pupils and the challenges your building presents.

The result is a highly informed, practical report for your leadership team, tailored to your school and shared with no one else. It will help you reduce costs, save time and improve environmental sustainability for your school.

The Discovery Report is just the beginning. CS4UK supplies everything your school needs, from washroom dispensers and consumables to cleaning products and equipment.

01 Discover

Every CS4UK relationship begins with an on-site visit. We assess your washrooms and wider cleaning arrangements: what is costing you money, what is being misused, and what needs to change.

02 Trial

We build a solution around your findings: vandal-resistant dispensers, eco-friendly and non-hazardous products, and an easy-to-use ordering portal to keep every site supplied. You see it working in your school before you commit.

03 Save

Uniformity across every site. Less vandalism and waste. Simpler supply. Real cost savings. If investment in new cleaning equipment is needed, asset finance is available from CS4UK in line with government regulation.

Ready to start with discovery? Book your Discovery Report. No obligation. No sales pitch.

Book your on-site Discovery Report today, call us on 0800 107 7729

Washroom Systems.

Cleaning Products.

Equipment.

With so many products on the market, finding the right one for your specific building is what truly matters. For example, matching your toilet tissue to your pipework and dispensers to the reality of how they get used.

CS4UK supplies everything your Discovery Report identifies, specified for your building and your budget.

The wrong choice creates problems. CS4UK starts with the building, not the brochure.

Discover what better looks like for your school.
